REGISTRATION

During registration on Wednesday April 3, 2024 we will take a few minutes to complete a tech check and get familiar with the zoom meeting environment.

This will enhance the event experience by ensuring everyone is registered and familiar with the zoom environment BEFORE the event begins at 10am PDT Friday April 5, 2024.

You'll also be able to virtually meet other members and possibly socialize before the event kicks off!

During this session, you will review the questions you completed in your confirmation process so that you are more connected to your personal transformation. There may also be the opportunity to share what you're excited about and why you're attending.

TECH CHECK

The tech check will be completed during registration. Below are a few steps to take to set you up for a win:

- **Make sure your Zoom is up to date.**
- If you'd like to practice, select 'New Meeting,' and 'Join with Computer Audio.' Once in your zoom room, find the features such as: chat, reactions, mic on/off, video on/off
- Join the tech check from the computer or laptop that you will be using during the seminar. **Attending from a smartphone or mobile device is not advised.**

CLASS DAYS

This immersive journey invites you to explore the depths of your being, offering fresh perspectives and igniting excitement to pursue your goals and dreams.

To maximize the value of this class and ensure the return of your seat deposit, we **HIGHLY** recommend that you:

1. Commit to engaging fully in all five sessions of our program to unlock the full benefits of this experience.

2. Designate a private, distraction-free zone where you can concentrate and engage without interruptions. This space should ensure your privacy and that of others, allowing you to be fully present without concerns of being overheard or disturbed.

3. Reserve the class schedule exclusively for your personal growth experience.

This fully immersive, experiential course is designed to capture your full attention and is not suited for multitasking. Turn off electronic and make arrangements to minimize distractions.

We are scheduled to end each Class Day by 8pm PDT though it's suggested to not have anything planned immediately after class in case we may need to go slightly over. It's also suggested to make social plans after end of class Day 3 to stay focused.

4. Embrace the power of reflection and connection by sharing your insights and emotions with friends or loved ones you enrich your experience and foster a supportive community around your growth.

ATTIRE AND WHAT TO BRING

It's suggested to wear informal comfortable attire which may include open collared shirts, dresses, blouses/shirts, sweaters, or nice jeans.

Keep in mind, your camera/video will be on all weekend. You should be comfortable, yet appropriate.

Below are other items that we recommend you have:

- › A journal & writing instrument. Paper and pen over digital items are HIGHLY recommended.
- › A water bottle and snacks.
